

AIR 1 serves me and my family by providing quality Christian Programming locally in Southern California. If they are disabled due to the LPFM broadcaster we will no longer be able to get this quality programing that I feel is an essential part of my family's daily life. AIR 1 allows me, my family and the community to have non-stop music that is not full of offensive language and rude subject matter. AIR 1 provides the community with a service unlike other radio stations as they are commercial free and listener supported. They pay their way like other stations and we have a choice to support them so we can hear them in our area. Please do not change your rules forcing them off the air.

Kind Regards,
Brian Purvis
